## Gadget Guy to speak at South West conference

You've seen him on TV, now you have the opportunity to hear Australia's Gadget Guy discuss technology first-hand.

Peter Blasina will be in Bunbury on December 1 to discuss the National Broadband Network at a Critical Horizons event.

He will speak on the topic "The business of technological change".

Joining him will be a number of experts including futurist Ross Dawson, Australia's First Online Community author Mal Bryce and Duncan Bremner from NBN Co.

The speakers will discuss the possibilities that will come with the rollout of the National Broadband Network, including the potential impact of the game-changing technology on health, business and government.

An initiative of the South West Development Commission, the Critical Horizons futures series is the region's premier think tank series.

Past events have explored the future of water, renewable energy and carbon trading. The most recent event was held in Manjimup and brought the future of agriculture and food into sharp focus.

For more information about The National Broadband Network: What's in it for me? conference, contact event manager Alan Cross at the South West Development Commission by phoning 9792 2000 or emailing [alan.cross@swdc.wa.gov.au](mailto:alan.cross@swdc.wa.gov.au).
